Childbirth and Childrearing

Pregnancy Notification and Mother and Child Health Handbook

When you become pregnant, please submit a pregnancy notification to the City Office, a special branch office or public health center. You will receive a Mother and Child Health Bag, which includes: your Mother and Child Health Handbook (Boshi Kenko Techo); an invitation to classes for expectant parents; prenatal health examination coupon, prenatal dental health checkup coupon; and a postcard for arranging postnatal home-visit services. The Mother and Child Health Handbook-a small notebook used for recording things such as pregnancy progress and your newborn child's health condition—is required to receive checkups and vaccinations.

Pregnancy consultation

Pregnant women who submit the pregnancy notification can undergo an interview with a professional (mother and child health coordinator)

so they can give birth with a peace of mind. Scan the 2D code at right to access the Pregnancy Consultation Reservation System, and make an appointment with the health center with jurisdiction over your address. (Available in Japanese, English, Chinese, and Korean).

Vaccinations

There are two types of vaccinations in Japan: periodic vaccinations (recommended by the government) and optional vaccinations.

The health center will notify you when vaccinations are available. However, this does not include voluntary vaccinations such as the antibody test and vaccine for rubella, shingles vaccinations, and the pneumococcal vaccination for the elderly.

^{*1:} The DPT-IPV-Hib vaccination was added to the list of periodic vaccinations on April 1, 2024.

*2: In principle, the MR (measles and rubella) vaccine will be administered. Children who have already had measles or rubella, however, can only be vaccinated for the disease they have not had, at the request of the parents/guardians. However, for Phase 5 of the rubella vaccination, only the MR vaccine is available.

*3: In accordance with a notice the Ministry of Health, Labour and Welfare (MHLW) issued, the active promotion of Japanese encephalitis vaccinations was halted from May 30, 2005. However, they were again recommended for 3-year-old children in 2010, 4-year-olds in 2011, and 9-year-olds in 2016. For individuals who missed out on vaccinations due to this situation until 2009, the vaccination period has been relaxed. Those born between April 2, 1995 and April 1, 2007 who missed Phases 1 and 2 of the vaccination can receive the required number of inoculations according to their current vaccination status until they reach 20 years old. Those born between April 2, 2007 and October 1, 2009 who missed Phase 1 can receive the required number of inoculations according to their current vaccination status between the ages of 9 and 12.

*4: In accordance with a notice the MHLW issued on June 14, 2013, active promotions for the vaccination were suspended. However, further research has confirmed that there were no par-ticular concerns about the vaccine's safety, and it was recognized that its efficacy clearly out-weighed the risk of adverse reactions. Active promotions were resumed in April 2022 in ac-cordance with a notice the MHLW issued on November 26, 2021.

*5: The special measure (transitional measure) related to eligibility to receive the vaccination ended on March 31, 2024. For FY2024, the eligibility has been changed as shown in the table above. Please note

^{*5:} The special measure (transitional measure) related to eligibility to receive the vaccination ended on March 31, 2024. For FY2024, the eligibility has been changed as shown in the table above. Please note that those who have already received the 23-valent pneumococcal vaccine are not eligible for periodic vaccinations.

● Community-Type Childcare Services

OSmall-Group Childcare Services

Childcare is offered in a small group of children (capacity: 6–19) between the ages of 0 (57 days old) and 2 years in an atmosphere similar to home childcare services. Daycare center fees are the same as those at accredited nurseries. However, each facility determines its own fees for extended childcare.

OIn-House Childcare Facilities

In-house childcare facilities offer childcare for employees of the company as well as for people in the community. Daycare center fees are the same as those at accredited nurseries. However, each facility determines its own fees for extended childcare.

Oln-Home Childcare Program (for children with disabilities)

Children who require medical care and would therefore experience significant difficulties in a group childcare environment are eligible for one-on-one in-home childcare services. Childcare hours are from 8 a.m. to 6 p.m. for a maximum of eight hours.

Fees are the same as those at accredited nurseries.

Oln-Home Childcare Program (for children on a waiting list)

Children from 0 (57 days old) to 2 years old whose parents/guardians have applied to accredited nurseries and are on the waiting list are eligible for one-on-one in-home childcare services.

Fees are the same as those at accredited nurseries. The fee for extended childcare is ¥1,000 per hour.

Temporary Childcare

Emergency Temporary Childcare Support Program

If you are temporarily unable to look after your child due to emergency reasons such as hospitalization, the city dispatches babysitters who can provide childcare at your home. Preschoolers 0 (zero) months old or older with no health issues can use this service.

OChildcare for Sick and Recovering Children

If your child (from 7 months old to 3rd grade elementary school age) is slightly ill (but not serious enough to require hospitalization) or recovering from illness and you are unable to care for them, the child can be taken care of at one of the four daycare center rooms for sick and recovering children designated by the city.

Capacity: Six children per day per daycare center room (four children per day at Nichii Kids Sawayaka Daycare Center Nihonbashi-Hamacho)

Hours: 9 a.m. to 5:30 p.m.

OTemporary Babysitting Care

Babysitting care is provided if your child (preschoolers 57 days or older) requires temporary care for reasons such as participating in ceremonial occasions or fatigue from childrearing.

Capacity: Ten children between 57 days and 1 year old; ten children from 2 years old and before entering elementary school

Hours: 9 a.m. to 5 p.m.

Fee: ¥800 per hour

* If your child requires emergency childcare due to a parent/guardian's hospitalization or similar reason, it will be provided at ¥2,000 per day, regardless of the capacities listed above.

Twilight Stay

Nighttime babysitting services are provided for your child (from 2 years old to graduation from elementary school) if you will be returning home late due to work, etc.

Capacity: Ten children from 2 years old and before entering elementary school; 10 children of elementary school age

Hours: 5 to 10 p.m.

Fee: ¥2,000 per use (an additional ¥400 will be charged if you wish for a meal to be provided)

Ochildren's Short Stay Program

If you have difficulty in taking care of your child (from 57 days old to graduation from junior high school) due to illness or other reasons, they can be taken care of at a city-designated infant home, children's orphanage, or a host family home.

Capacity: One child per facility/host family

Usage period: Up to 7 days and 6 nights (up to 3 days and 2 nights for host families)

Fee: ¥6,000 for the first night and 2 days; and ¥3,000 will be charged for each additional day.

Babysitter Use Support Program (Temporary Childcare) Use Support) and Emergency Response Service

Temporary Childcare Use Support

When you need temporary childcare, you can receive a subsidy for usage fees for babysitters certified by the Tokyo Metropolitan Government.

Eligibility: Until the end of the fiscal year in which your child turns 6 vears old.

Hours: Daily, 7 a.m. to 10 p.m.

Subsidy limit: \(\frac{4}{2}\),500 per hour for up to 20 hours per month, and 144 hours per fiscal year per child (up to 40 hours per month and 288 hours per fiscal year for multiple births).

○緊急対応枠

ー時預かり保育(緊急保育)や緊急一時保育援助事業などを利用するまでの繋ぎの期間として、東京都が認定しているベビーシッターを利用する場合の利用料を助成します。

利用するには、子供家庭支援センターへの事前相談・利 用承認が必要です。

● A Space for Children—"Plady"

Plady facilities are spaces for elementary school children to play and study after school in a safe and secure environment. They are available to children of both working and non-working parents/guardians. Note, however, that children who are already enrolled in municipal student clubs are not eligible for Plady.

Eligibility:

Children attending municipal elementary schools or elementary school children who live in the city (you must first complete the designated registration procedures to apply for this program).

If both the school the child is attending and a school that covers the child's school district offer Plady, you can apply to only one school.

Elementary and Junior High Schools

In Japan, compulsory education consists of six years of elementary school (6 to 12 years old) and three years of junior high school (12 to 15 years old) while higher education consists of three years of high school and four years of university. The school year starts in April for all educational levels. Elementary school is open to children who will be 6 years old by April 1 of the current year, and junior high school is open to those who will be 12 years old by April 1. Although compulsory education is not required for foreign nationals, they are able to attend municipal elementary and junior high schools. If you would like your child to attend a municipal school, please consult the section below.
